

We are amongst the leading manufacturers, suppliers and exporters of gears, bevels and pinions. Made of quality steel, these are appreciated for features like durability, corrosion resistance, dimensional accuracy and resistance to temperature.

We “Arvind Forging ” are the leading Manufacturer, Distributor & Exporter, suppliers and exporters of all types of Industrial Gears. With the offered range including Bevels, Pinions, Extruder Gearbox, Worm and Worm Shaft and others, these are manufactured using quality steel and other contraction material choices and can be developed in both standard as well as in customized finish specifications.

The offered gear range is highly appreciated for features like durable finish, corrosion resistance and high dimensional accuracy and is available in different specifications and is used in both Automotive and Engineering industries.

Owing to the high quality standards maintained at our end, the gears, bevels and pinions made available by us are widely appreciated by clients including prestigious names like Swam Pneumatics, Alpha Services, Geco Industries, Unison Engineers, Webtech Engineers, Light Graphics, Unitech Engineers and Airvack Industries & Projects.
